Cross Country Skiing & Fat Tire Trail Updates - Ski conditions provided by [KeweenawTrails.com/trail-reports/](https://www.keweenawtrails.com/trail-reports/)

- **Michigan Tech** – It's another perfectly beautiful winter day. All the main trails have been groomed and tracked with the piston bully, it looks great. With the cold temperatures. It should set up nice and firm. Crew is heading out to roll, groom and track River and Tolkien. Come on out and ski and have a lot of fun. You deserve it. (3/14/2026)
- **Swedetown** – Good morning all!! It is truly a beautiful morning here at Swedetown Trails. The sun is shining, the snow is sparkling, the groom is gorgeous and setting up well, and the trails are all freshly groomed and tracked for you to come enjoy! All main trails were groomed and tracked with the Husky this morning, and the Multi-Use and snowbike loops 1-3 and 5 will be freshly groomed within the next few hours. Enjoy your ski everyone! Get out before Heikki Lunta buries us all in snow again this weekend (3/14/2026)
- **Swedetown Snow Bike** - Grooming is gonna be postponed for today. It's really coming down so any worm i do well be gone in an hour. Stay warm and safe! (3/13/2026)
- **Chassell Ski Trails** - Ran the 7' ginzu knives all the way down to stir in the 3+ inches of new snow and then set fresh tracks. (3/11/2026)
- **Chassell Snowshoe Trails** - Should stay off the trails until colder weather with hopefully some snow to mitigate some of the damage caused by a user being on parts of the trails when it was too soft. (3/4/2026)
- **Churning Rapids & Maasto** –Everything was rolled and dragged today in anticipation of a stormy weekend. Trails are generally soft. (3/12/2026)
- **Churning Rapids Snow Bike** - Trails groomed Wednesday night. We used the Vplow to push off the fresh snow and preserve the firm base for one more day. Get out there and take advantage on Thursday as there is heavy snow in the forecast Thursday night into Friday. Riding from the High Point Road trailhead is recommended on Thursday since the ski trails will likely be soft. (3/12/2026)
- **Eagle Harbor Ski Trails** – Not the greatest set of tracks, but all groomed today(3/12). With the clipper system into Friday, hopefully we will be able to get out on Saturday to freshen the trail. Enjoy!! (3/12/2026)
- **Copper Harbor Trails Club "End of the Road Trails"** – Looking great! (3/12/2026)
- **Copper Harbor Trails** - Great conditions Hard pack and corduroy (2/4/2026)
